Kinetic Art Masterpiece Reimagined

Mrs. Micheli and Mrs. Kovacs collaborated to help 6th grade Art students create moving artwork. The students used the Warrior Design Process to create a kinetic (moving) work of art. Students researched and decided on several famous works of art that inspired them. Afterwards, they created their own original work of art, deciding on materials and design elements. The project included developing a handmade moving mechanism, using robotics to program, and wiring a light feature.

Fifth Grade World Water Day

The fifth grade celebrated World Water Day at the Great Lakes Science Center as part of their partnership with Drink Local Drink Tap. They engaged in a showcase, water-themed activities, and with DLDT's founder Erin Huber back from Uganda. They had the opportunity to become more inspired to make waves and respond to the fresh water crisis.
